Erasmus + Course/Job Shadowing:

iPadagogy in the Classroom: ‘Keep taking the tablets’

This course will introduce some creative ideas for using iPads in the classroom (and beyond) to capture the learning process, and share with others. Whether you have one iPad in the school or an iPad for each student, there are opportunities to adapt your teaching to make the most of this device. This course is designed for colleagues relatively new to iPads or, who are currently obtaining some and want to explore their potential. There will be opportunities to explore some of the most appropriate Apps, plus a look at the actual practicalities of using iPads with pupils, and in the field.

Objectives:

- Introduce delegates to the iPad and its value as a teaching & learning tool;
- Suggest practical strategies for setting up the device for use in school, and dealing with common issues which may arise;
- Allow practical time to ‘play’ with the device and explore useful Apps for capturing and sharing information related to pedagogy, or to teach a particular topic;
- Demonstrate activities which have been used in schools to show how the use of iPads can transform learning, and showcase the work of other colleagues from other schools;
- Support colleagues in developing a plan to use iPads to share pedagogical practice and create course materials which can be shared in the cloud for further use beyond the school day.
- Provide teachers/staff with an insight into Portuguese culture in the historical cities of Évora and Beja.

Local: Portugal- Agrupamento de Escolas de Vidigueira (Alentejo-south of PT)

Dates: 2016/2017 (The organization can choose the date that best suits its interests)

5 day or 10 day mobility

ERASMUS +

(available for courses starting from January 2016, **deadline for ERASMUS+ applications is February 02th**)
